## Matrix awarded Camp Roberts Joint Land Use Study

August 30, 2011—Colorado Springs, Colo.—Matrix Design Group, Inc. (Matrix) announces it has been awarded a contract with San Luis Obispo County to prepare a Joint Land Use Study (JLUS) for the areas surrounding Camp Roberts. Camp Roberts, located in San Luis Obispo and Monterey counties in the Central Coast region of California, is the largest of the California National Guard’s three major training camps. On average, more than 1,100 soldiers train there each day.

The Camp Roberts JLUS will be a cooperative land use planning effort conducted between local jurisdictions, Camp Roberts, state and federal agencies, and other affected stakeholders. The primary objective of the JLUS effort will be to reduce potential conflicts between Camp Roberts and surrounding areas while accommodating new growth and economic development, sustaining economic vitality, protecting public health and safety, providing for environmental sustainability, and sustaining the operational missions of the installation. As part of this effort, Matrix will engage the local community in identifying potential issues and solutions that will meet the stated objective. The end result of the JLUS effort will be a report that will provide the strategies and tools needed to make compatibility a long-term reality. The study is expected to be complete by the fall of 2012.

Matrix Design Group, Inc. is a Colorado-based, award-winning, interdisciplinary firm specializing in planning, engineering and consulting services to clients across the U.S. Matrix is consistently ranked as a top 500 design firm by Engineering News Record and a “Best Place to Work” by Zweig White, a design and construction industry consultant.
