## Matrix Awarded Sand Creek Drainageway Plan

*Major Drainageway Plan and Flood Hazard Area Delineation Project to Set Stage for Future Transportation and Development Plans*

June 29, 2011, Denver, Colo – Matrix Design Group, Inc., was recently awarded a contract to lead the **Sand Creek / Coal Creek / Murphy Creek Major Drainageway Plan and Flood Hazard Area Delineation Project** for the Urban Drainage and Flood Control District, the City of Aurora and the Southeast Metro Stormwater Authority. The Matrix team, led by Project Manager Robert Krehbiel, PE, will address many drainage issues within the Sand Creek basin including updated hydrology, floodplain hydraulics and channel stabilization. The Sand Creek project begins immediately and is scheduled for completion by April 2012.

The major drainageway plan will examine future roadway and bridge construction over the creeks, future extension of the Sand Creek Greenway regional trails, and impacts to the regulatory floodplain from past development activities.

Matrix Design Group, Inc. is a Colorado-based, award-winning, interdisciplinary firm specializing in engineering, planning and consulting to clients across the U.S. Matrix is consistently ranked as a top 500 design firm by Engineering News Record and a “Best Place to Work” by Zweig White.
